Auto Grip System

The Auto Grip System PLUS is driven by the weight of Guitar or Bass.

The AGS PLUS has been engineered with a smooth-sliding channel, main body and two arms with SFF rubber.

When the instrument is placed on the yoke, the channel slides down and rotates two arms holding and protecting your guitar.

To take the guitar, simply lift the instrument out of the housing, two arms release immediately. Fits guitars with neck from 40 mm – 52 mm (1.57" – 2.05").

Narrow Instrument Neck Adjustment (N.I.N.A™) adapters are specially designed to reduce the distance between the AGS arms.

Foldable Auto Grip System Yoke Supports a wide variety of instruments and folds up securely for travel.

Adjustable Folding Back Rest The multi-angle folding back rest supports a wide variety of instruments and folds up securely for travel.
